

# Trust Evaluation

In evaluating other people to determine **IF** you might want to extend a little bit of trust, look at:

- 1. Do they honor themselves.*
- 2. Do they honor others.*

Meaning, do they think of self and others as special creations that have good to contribute to the world around them **AND** that they are worth taking good care of themselves.

The proof of the above test comes out when you look at:

- 1. How they spend their time.*
- 2. How they spend their money.*
