

Truly... All Is Well

So many of you are frustrated in your daily life because things will not go the way you want them to go, and you become very disillusioned with the teaching about God's love.

But we would assure you that as you daily strive to overcome all doubts about the love and wisdom of God, you will be getting nearer and nearer to an expansion of consciousness— the expansion of your own consciousness wherein you will feel, and be blessed, with heavenly joy and comfort and assurance that in God's world all is well.

And what about this world? Is all well for you in this world on the physical plane? Yes, my dears, it is. It is you who are sometimes out of step, not life. You want things to be different from how they are, when what the true aspirant is after is complete acceptance of the wisdom of God's laws.
